 11. How To Become The Person You Need To Be In Order To Get What You Want
 12. How To Design and Enjoy Your Ideal Lifestyle
 13. How To Design and Utilize Support Structures That Lead To Success

What is the **Mastermind** group?

A Mastermind Group is an extremely powerful support structure. The original concept of the "Master Mind" was introduced by Napoleon Hill in his timeless classic 1937 book *Think and Grow Rich*. In the book, he writes:

"The Master Mind may be defined as: Coordination of knowledge and effort, in a spirit of harmony, between two or more people, for the attainment of a definite purpose." He also, states, *"No two minds ever come together without, thereby, creating a third, invisible, intangible force which may be likened to a third mind."*

A Mastermind Group as a synergistic community of supportive colleagues who work together to help each other attain new heights. Your peers help you brainstorm, give you objective feedback, create structures to maintain focus, provide support and act as catalysts for growth, all the time maintaining confidentiality, respect and complete honesty. Through the group

synergy, you gain tremendous insights which will improve your business and personal life. There are many potential benefits of participating in a Mastermind Group, such as:

- A "tribal" experience - a sense of community - a sense of shared Endeavor
- Learn from the *experience* of others
- The *perspective* of others - seeing beyond what we can see in ourselves
- An instant and valuable support network
- Real progress - in your business and personal life
- An accountability system to propel you higher than you could go on your own
- Overcome fears - especially the fear of change
- Focus
- Momentum
- A time to work "on" your business

Because of the nature of a group, a commitment is required. A group should only consist of highly motivated people who are willing to ask for and receive help. These people must also be dedicated and willing to help and support others. All group applicants will be pre-screened. The group will be made up of people with a strong desire, deep-seated inspiration and intense passion to reach or exceed their goals. Effective Mastermind Groups create win-win-win situations for all participants. New friendships develop. New bonds are formed. Everyone grows because of the supportive synergistic nature of the Mastermind Group.
